## **Liquid Bulk Transport Solutions**

Dubai I Singapore I Pakistan I Bangladesh I Afghanistan

The ISO tank is one of the widely used tank-containers by Chemical, Sugar and Oil Industries for the transportation of hazardous and non-hazardous liquid cargo. e2e offers a range of world-class bulk logistics services and innovative products, including our own fleet of ISO tanks.

e2e has a fleet of 50 ISO tanks that are ideal for transportation of hazardous and non-hazardous liquids anywhere in the world.

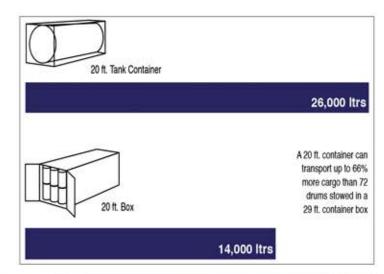

Lowering your costs and environmental impact, ISO tanks provide a safe and secure method of transporting liquids in bulk.

## **TOP 7 REASONS TO CHOOSE ISO TANKS OVER DRUMS**

## ISO tank comes with following benefits:

- Ensures safety of cargo by enforcement of ISO 6346
- Allows smooth delivery of specific chemicals in large quantities
- Carries 60% more quantity by utilizing the same shipping space
- Provides on-site storage facility to shipper and Consignee
- Saves from procurement, packaging and handling costs
- Shortens time required for loading / un loading of cargo
- Reduces carbon Footprint on per shipment basis

WHAT MAKES ISO TANKS SO RESOURCEFUL?  ISO TANKS VERSUS DRUMS

## **About e2e**

Formed in 2006 e2e is one of Pakistan's leading providers of end to end logistics services, specializing in international and local Air / Ocean freight and associated supply chain management solutions that include warehousing.

In 2014 as part of our global expansion plan we opened offices in the hub of international and trade business namely Singapore and plan to launch our Dubai office in 2015. Between 2008 and 2010 we grew our revenues by a massive 1,918% to become Pakistan's fastest growing company on the list of All World Network, an international ranking system for growth companies in emerging markets.
